

## SECTIONAL PRESIDENTS IN CHARGE OF TUBERCULOSIS CONGRESS

DR. WILLIAM H. WELCH.

DR. VINCENT Y. BOWDITCH.

DR. CHARLES H. MAYO.

DR. ABRAHAM JACOBI.

DR. EDWARD T. DEVINE.

SURGEON GENERAL WYMAN.

DR. LEONARD PEARSON.

## Section I.

Dr. Welch, president of Section I, is professor of pathology at Johns Hopkins University, and is one of the best known men in the medical profession in the United States. He is president of the board of directors of the Rockefeller Institute for Medical Research, and trustee of the Carnegie Institution. He lives in Baltimore.

Pathology and Bacteriology, "Biology of the Tubercle Bacillus."

Remarks of the president of the section, Dr. William H. Welch.

Dr. Milton J. Rosenau, Washington, D. C., "The Vitality of the Tubercle Bacillus."

Prof. John Weinzirt, Ph. D., Seattle, Wash., "The Action of Diffuse Light Upon Bacillus Tuberculosis."

Dr. N. Janco and Dr. A. Elfer, Klausenberg, "Vergleichende Untersuchungen über die praktisch wichtigen sauresten Bacillen."

Prof. E. Arloing and Dr. Paul Courmont, Lyon, "Nouvelles Cultures Homogènes des Bacilles de la Tuberculose."

Prof. A. Rodet, Montpellier, "La Virulence du Bacille dans ses Rapports Avec l'Évolution Clinique de la Tuberculose Pulmonaire."

Dr. A. Parker Hitchens, Glenolden, Pa., "A Chamber in Which Dried Tubercle Bacilli May Be Handled Without Danger."

## Section II.

Dr. Bowditch, president of Section II, is one of the foremost tuberculosis fighters in America and for years has been identified with the movement against it. He is one of the most learned members of the Harvard University medical faculty, and his father was one of the leading physicians of Boston, having been the first American physician to call attention to the infectious nature of tuberculosis.

Section II, clinical study and therapy of tuberculosis, sanatoria, hospitals, and dispensaries.

Address of the president of the section, Dr. Vincent Y. Bowditch.

Dr. Francis H. Williams, Boston, "Use of the X-ray."

Prof. L. Landouzy, Paris, "La Typho-Bacilliose."

Dr. M. P. Ravenel, Madison, Wis., and Dr. Arnold C. Klebs, Chicago, Ill., "Mixed Infections."

Dr. Robert N. Willson and Dr. Randle C. Rosenberger, Philadelphia, "Duration of the Actively Infectious Stage of Tuberculosis."

## Section III.

Dr. Mayo, president of Section III, lives at Rochester, Minn., of which city he is a native. He is a graduate of Chicago Medical College, and previous to that secured a degree of M. A. from Northwestern University. He was president of the Minnesota State Medical Association 1905-06.

Surgery and orthopedics. Meyer J. Sturm, Chicago, Ill., "Construction of Hospitals for Tuberculosis Patients."

Dr. F. Gallagher, El Paso, Tex., discussion.

Dr. W. E. Casselberry, Chicago, Ill., "Tuberculosis of the Larynx: The Type Which Is Capable of Recovery, and the Principles of Treatment."

Dr. Charles A. Oliver, Philadelphia, Pa., "A Brief Note Upon the Value of the Ophthalmic-Tuberculin Test in the Question of Surgical Treatment of the Orbital Disease."

Dr. Sydney Stephenson, London, "Tuberculosis of the Choroid."

Dr. Oscar Dodd, Chicago, Ill., "Tuberculosis Affecting the Cornea."

Dr. F. H. Verheoff, Boston, Mass., discussion.

Dr. Clarence J. Blake, Boston, Mass., "Tuberculosis of the Ear."

Dr. D. Braden Kyle, Philadelphia, Pa., "Tuberculosis of the Mouth and Ear."

## Section IV.

Dr. Jacobi, president of Section IV, is distinguished as one of the foremost specialists in diseases of children in the United States. He is a native of Westphalia, Germany, and, although he left Germany while still in his twenties, he was even then noted as an authority on children's diseases.

Section IV—Tuberculosis in children—Etiology, prevention and treatment. Address by the president, Dr. Abraham Jacobi.

Dr. Linnaeus E. La Feira, New York, "Tuberculosis in Infants. An Analysis of 130 Hospital Cases as Regards Etiology and Diagnosis, with Remarks Upon Prevention and Treatment."

Dr. Karl Oscar Medin, professor of diseases of children, Stockholm, "A Few Notes on Tuberculosis in Infants."

Dr. Theodore Sheehan, Edinburgh, Scotland, "Tuberculosis in Children. Particularly with Reference to Tuberculosis of the Lymphatic Glands."

Dr. Edgar P. Copeland, Washington, "The Relation of Infectious Diseases, Measles, Whooping-cough and Influenza to Tuberculosis in Childhood."

Dr. William J. Butler, Chicago, "Inquiry Into the Opposite Power of Breast Milk for Tubercle Bacilli."

## Section V.

Mr. Devine, president of Section V, has the honor of being the only layman to be appointed to the presidency of one of the sections. He is one of the best-known educators in the United States and secretary of the Charity Organization Society of New York. He is the editor of *Charities and the Commons*, and is the Shift professor of social economy at Columbia University. He has for many years been identified with charitable movements in New York city, and during the period immediately following the earthquake at San Francisco was the special representative of the American National Red Cross. He is the author of a number of books concerning charitable work and social economics, including "The Principles of Relief," "Efficiency and Relief," and "Economics."

Section V—Hygienic, social, industrial, and economic aspects of tuberculosis. First session to be held Tuesday.

## Section VI.

Surgeon General Wyman, president of Section 6, the chief executive of the Public Health and Marine Hospital Service, suggested and established the first Government sanatorium for consumptives at Fort Stanton, N. M. He has been in the Marine Hospital Service since 1878.

Section VI, State and municipal control of tuberculosis. Remarks of the president of the section, Walter Wyman, surgeon general, United States Public Health and Marine Hospital Service.

Herr Dr. H. von Schrotter, Vienna, Austria—"Über die Staatliche und Private Fürsorge gegen die Tuberkulose in Oesterreich."

Dr. H. Roerdam, secretary, national committee of Denmark—"Measures against human tuberculosis in Denmark."

Dr. B. Patrikios, secretary, superior board of health of Greece—"The struggle against tuberculosis in Greece."

Governor Conrad Cedercrantz, M. P., Kalmar, Sweden—"The task of the state in the anti-tuberculosis movement."

## Section VII.

Dr. Pearson, president of Section VII, who lives in Philadelphia, is one of the foremost veterinarians in the United States. He is the editor of the *Veterinary Magazine* and professor of veterinary medicine at the University of Pennsylvania since 1891, and dean of the veterinary faculty since 1897.

He has been the State veterinarian of Pennsylvania since 1895, is a member of the State board of health and the board of health of Philadelphia. He is secretary of the State live stock sanitary board and a member of the American Public Health Association.

He was president of the Pennsylvania State Veterinary Association from 1899 to 1901, and before that served two years as president of the American Veterinary Medical Association. He has contributed many papers on public health matters and subjects of importance in connection with the practice of veterinary medicine.

Section VII—"Tuberculosis in Animals and its Relations to Man." First session to be held Tuesday.

8:00 p. m.—Assembly Hall, new National Museum, Lecture by Prof. Bernard Bang, of Copenhagen, Denmark, on "Studies in Tuberculosis in Domestic Animals, and What We May Learn Regarding Human Tuberculosis."

## Letters on Infantry Case Arousing Much Resentment

WASHINGTON TIMES BUREAU. ALEXANDRIA, VA., SEPT. 26.

Much interest and comment was aroused in Alexandria this evening by the publication, exclusively in the Times, of the correspondence between Governor Swanson and P. J. Murphy, in relation to the letter written by Major James E. King to Colonel Perry, in regard to the disbanding of the Alexandria Light Infantry.

The citizens of Alexandria are indignant at the action of Governor Swanson in refusing to the Light Infantry a copy of the letter in which charges are alleged to have been made against certain officers of that company.

The officers of the Alexandria company have a large following in this city, all of whom are astonished at the action of Governor Swanson, who, in one letter, states that he has ordered the adjutant general to forward to Captain Mercer copies of all letters in connection with the disbandment of the Alexandria Light Infantry Company, and two days afterward writes that the letter in which it is alleged the charges on which the disbandment of the company is based is a private letter, and cannot be given out for publication.

Officers of the Alexandria company deny the statement of the governor that the letter was not used as evidence against them, and in support of their contention quote the letter of

Colonel Perry to the adjutant general recommending the disbandment of the Light Infantry which he says that he increases in a letter from Major King which he wishes the adjutant general to consider in connection with the case.

"If the letter does not contain anything reflecting on our characters," the officers of the Alexandria company assert, "why is it the governor refuses to make it public?"

If it does contain any charges against them, they claim that they should be given a copy of it, and they then would be able to answer them. What further action will be taken in the matter has not been decided upon, but it is thought that a military court of inquiry will be asked for to investigate the cause of the disbandment of the Alexandria company.

## WILL NAME BOARD TO TRY STEWART

Instructions were issued at the War Department this afternoon for the assembling here on Monday at Washington barracks of the Retiring Board that is to consider the case of William F. Stewart, the Arizona exile. The spirit of the War Department is that there shall not be a moment's delay in taking up the case, which probably is without a precedent in the annals of the War Department. While the department is determined to get rid of the colonel on the ground of being "temporarily impossible," it has reached the realization that the colonel knows how to fight.

## LARGEST COAL PIERS TO BE IN VIRGINIA

Rogers' Railroad Awards Contract for Construction of Work Near Norfolk.

RICHMOND, Va., Sept. 26.—The Virginia railway, a Rogers and Rockefeller property, has awarded a contract to A. M. Walkup, a Richmond contractor, to build at the terminus of the road at Sewell's Point, near Norfolk, the largest coal pier in the entire world.

The pier is to be larger than all the other nine on the Virginia seaboard combined.

The Virginia railway is to carry more coal than all the other roads in Virginia combined, and will also carry a great deal of oil.

The work on the great pier is to begin at once.

The steel frame will be constructed by a separate steel firm, but the iron work supporting the woodwork of the pier will be included in the Walkup contract.

## DROPS DEAD IN SCHOOL

MONTREAL, Sept. 26.—F. E. De Lisle, sixty-one years old, of Cohasset, N. Y., dropped dead of heart disease in the office of St. Mary's College here while negotiating for the admission of his son, Armand, as a novice in the Jesuit school at Sault au Recollet, Quebec.

## Gay World Condemns Fat

The Empire and the Directorate gown having come to stay, fatness is de trop—that is to say "not in it." Fat ladies are threatened with being wiped off the map.

There is one loop-hole of escape, however, for the overweight lady. Let her get one of the large cases of Marmola Prescription Tablets, and take one after each meal and at bedtime, and pretty soon she will notice she will be wearing the new mode with satisfaction to herself and the consternation of her dear enemies.

These cases of Marmola Prescription Tablets, which, by the way, being landed strictly in accordance with the famous Marmola Prescription, are perfectly harmless, contain such a generous quantity of tablets that they last a long time and are found to be most economical, costing, as they do, only 75 cents. They are also a very pleasant method to adopt, for they render dieting and exercising entirely unnecessary. All druggists keep them, or they may be obtained from the Marmola Company, Detroit, Mich.

## RIOJA CLARET
